Buy American (ARRA Section 1605)

The ARRA requires that all iron, steel and manufactured goods used for the construction of this contract be produced in the United States. The ARRA states:

(b) Subsection (a) shall not apply in any case or category of cases in which the head of the Federal department or agency involved finds that –

(1) applying subsection (a) would be inconsistent with the public interest;

(2) iron, steel, and the relevant manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or

(3) inclusion of iron, steel, and manufactured goods produced in the United States will increase the cost of the overall project by more than 25 percent.

(c) If the head of a Federal department or agency determines that it is necessary to waive the application of subsection (a) based on a finding under subsection (b), the head of the department or agency shall publish in the Federal Register a detailed written justification as to why the provision is being waived.

(d) This section shall be applied in a manner consistent with United States obligations under international agreements.”
